- 5. In the Browse for Folder window, select the Desktop and click "OK". A "Copying" box will display automatically and close when completed.
- 6. If this is the first time installing buyback skip to STEP 13. If not, you will need to delete Firebird.

- a. To do this press Ctrl Alt Delete and select Task manager.
- b. Locate and highlight Firebird. Click End Task. This will keep you from being required to restart your PC after installation.

Note: You can also go to your task bar and click on the carrot " 🏠 " to see if Firebird is there. If so right click on it and click shutdown.

7. Next go to your start menu on your PC and locate Control Panel. The option is found by typing it in the search bar.

8. Go to Programs and Features
